

## Good Sense Vert

### Air freshener and odour neutraliser – continuous action

#### Description

Good Sense automatic Dispenser is a system which automatically sprays high quality air care products via one convenient dispenser. All our products neutralise malodours and perfume the air for up to 56 days without the need of any maintenance at all. The system consists of compact, modern automatic dispenser including a locking mechanism. The refill cartridges are super concentrated and contain 45% of perfume (compared with an average of 2.5% for conventional aerosols). Our advance technology in concentrates allows therefore spray frequencies up to six times lower than conventional units. Cartridges can be changed within seconds, saving important time.

Easy and safe to use, Good Sense automatic dispenser is the ideal solution to effectively solve malodour problems and leave your selected fragrance in all public areas like offices, washrooms.

All our refill cartridges, except of Summer Festival, use the new and patented Odour Neutralising Technology (O.N.T technology) for malodour elimination. Unlike conventional air fresheners which mask malodours, the ONT active molecules literally chemically destroy malodour molecules and therefore enhance the perception of the perfume. In parallel, you therefore eliminate malodours and leave the area with a better scent for longer.

**Good Sense Vert:** Fresh green apple top notes intermingled with a hint of bergamot and orange that rest on a fruity heart softened by accords of raspberries nestling into a woody musk base. 100% sweetness of a green apple!

#### Key properties

- Based on the new patented Odour Neutralising Technology (O.N. T)
- Choice of five different fragrances plus a combo pack
- High perfume concentration
- Continuous action every 1,2 or 3 hours

#### Benefits

- Does not mask malodours but chemically destroys them to enhance the perception of the chosen fragrance
- Ideal to select the right atmosphere at the right place and at the right moment
- Very economical
- Up to 56 days of your preferred fragrance and at your selected intensity without the need of any maintenance!

# O1b

## Good Sense Vert

### Use instructions

All Good Sense refill cartridges are ready to use.

Application:

1. Turn the knob of the locking mechanism on the automatic dispenser and remove the lid.
2. Dispose used refill cartridge and replace by your chosen new fragrance.
3. Press the red "reset" button once to allow dispenser to consider the replacement effectively.
4. Select or deselect the photocell option\*
5. Put back the lid and turn the knob to lock the lid closed again.

\*Photocell option:

By choosing this option, the dispenser enters into a sleep mode whenever the room is put into darkness and stops spraying on the given intervals. This option allows you to save product during the night when no one uses the facilities.

For battery replacement and dispenser full details, please refer to users recommendations in the original packaging of the Good Sense dispenser.
